As a passionate and dedicated Information Technology graduate of Kenyatta University, I am excited to apply for the Full Stack Developer job position at your software house in Nyeri, central Kenya. My knowledge of programming concepts and languages such as C#, .NET, MYSQL, Pockectbase, Javascript,React will be valuable in supporting the success of the intervention delivery.I do believe my excellent interpersonal and communication skills inclusive of oral and written , ability to work both independently and collaboratively, enthusiasm for the problem-solving , exposure to agile and scrum development technologies I believe make me an ideal candidate for this position.

EXPERIENCE

2021 – UPTO DATE

PEER MENTOR, KENYATTA UNIVERSITY

- Assist new students in transitioning to university life by providing academic, social, and emotional support
- Coordinate activities and events for the peer mentorship program
- Conduct interactive sessions to enhance students' well-being

2021-PRESENT

PARTICIPATING IN TECH-RELATED FORUMS.

Contribute to open-source projects: Contributing to open-source projects greatly showcases my technical skills, working n on real-world projects, working with source code repositories and collaborate with other developers has enable me gain more technical and soft skills e.g. documentation of team projects.

Due to commitment to deadlines I have been exposed to identifying risks and enhancing problem-solving and adjustment to various clients requests.

Attend workshops and conferences: Attending workshops and conferences has helped me learn new skills, stay up-to-date with industry trends, and network with other professionals in my field. e.g. learnt microfrontends and microservices @Angular_Kenya workshop
